and Politicians. CLEVELAND S MESSAGE A LONG ONE

What Is Likely To Be Done This Week-Report of *Le Dr e*er of the Mint-Washington Sparety

Waship Tox, Dice 2 — The second seasion of the fifteeth longres will convent to more row. The field condors and other public results of Wich motion which have been practically described for the past two months, are fifted to hight with groups of congressmen, who accord to find help crown of the past two months, are fifted to high with groups of congressmen, who accord to find help crown any strators among these groups. The sense is appropriately whose members, as are a live in their own houses and frequent public hostelness only in rare cases. The howe is composed of poor men, who cannot afford the showly a tobushments of their sandornal a sociates, and are perforce obliged to find homes in less pretentious bottles and boarding houses with which Washington abounds. The majority of the Patric coast sensions and representitives are on hand to look after the interests of their respective states and territories.

CONGRESSIONAL FORECAST

Covering with the a Long One—Prospects for Legislation.

Prospects for Legislation.

Waseing 19. Dec. 2.—President Clere inned a annual message will be sent to both houses of congress to-morrow immediately upon receipt of the u usi notification that they are ready to receive any communication has has to a size. No delay is anticipated in organization. It is more than plobable that the reading of the message will consume the first legislative day as at its understoad to be of unusual length.

The report of the secretary of the treasury with not be sent to congress until Tuesday.

If the ax your so it seems proposed for that will be taken in.

If by any possibility the revenue bill should not course of perplation are rather wagne. The bills most likely to receive prompt attention with the least opposition are fines for the admission of south bakets, Montana and Washington territories into the Union. A special order for Tuesday at 2 o'clock is the Union Parche funding hill popularly sociated.

The sousa The sousa The sousa The sousa in the house will probably be devoted to the consideration of bills on the calendar in what is called the consideration morning built the privilege of calling, up bills resting with the committee on Indian affairs and the pending measure being that for the settlement of the clems of an old sottler for damages by a band of Indians.

an old scitter for damages by a band of and dinas. Thur day is the day fixed by the demo cratic caucus resolution for the considers than of the direct tax bill but it is still a matter of surmiss whether or not the caucus programme, will be adhered to

dience with the problem elect to morrow.
His visit is declared to be purely a social one

ANOTHER POLKET VETO

Washingrox, Dec 2—The president did not sign a bill which was sent to him in the last days of the last session of congress. The bill permitted persons who have abandoned and relinquished their homes stead entries to make another on try. The measure was get through the senate and house and sent to the president, but he allowed it to fail of becoming a law for want of his signature. Senator Dolph proposes to reintroduce the bill and secure its plassage, it possible, through the senate at an early day.

ANABURIST SUNDAY SURGOUS

They are Calimed to be Simply Auti Religions Societies.

Chicago Dec 2—Three hundred person, held a meeting at Autora Tutner hall this afternoon for the surpose of efficing a per manent organization in support of the so cilled Anarchist Sunday schools. The object was accomplished sevents persons present signing the roll of manuscript on the spot. The ferture of the inecting to-day was a general densit that the schools are enarchistic or socialistic. The plea was made that they are sim by unit religious. One of the leading radicals voiced the sentement of the meeting when he said. There is an attempt to remove our thil tren from the demonalizing influence of the Christian Sunday school and its banedia effect on their minds making them too stupid and lazy to think instead of developing their national.

The ceretary gives a brief review of the trouble with the Christalian Apache Indians from the Mexicin was to the present time and discusses various plans suggested for their dutine training the Lindians are now confined at Mount Vernon barrucks and many apachs have been made for their lettage. In rigard to their disposition the scretary was a various plans below hen suggested. The most promising only by ten Armstrong to place them on a tirm near for t Monroe, but their were serious object to is urged from many quarters and it is deamed in racticable. It is very describle to scene, some ji ce where the chimate is statistic and an opportunity may be had to instruct and employ them in agriculture. We manne the work if not of reformation certainly of anchoration and softening their savage quichnes is making progress, and they are as continued and happy as they can be anywhere outside of Arizona for it is to be remarked that hey cling to that spot and would resolutely resist and would be very in happy if moved to any other permanent bothe.

PROMOTOR

DESCRIPTIONS

Describing the army continue in large numbers as in previous years but from in vestigations recently in the it uppears that style cent of the describing occur before the expiration of the vector general service. the expiration of the second year of service. In discussing various plans suggested to prevent levertlons the secretary says. 'It is worth, of consideration whether the officers in command of troops at military posts or explains of companies should not be inthered to impose I unishment for a rainor of lense. But in granting such authority it will be necessary to specify the extent and character of the punishment for each offense. Otherwise there would be no unitorm rule nor would it be wise to repose so large, discretion upon a single officer.'

MIGGARY ALADEMS MISITABY ACADEMY

He reviews the report of the visitors to the military academy and indorses their recommend tions for new buildings for soldiers quarkers for a new academic building to the control of the result of an experiment of natural and experimental philosophy and the purchase of the kangsley estate.

Interest the secretary sais all states and territories now have at active in this sufficient under the regulations to at title them to receive or linea, and the territories of Arkansis and the harding of the second defenses and the handling of leavy artillery may be given to the matita and officers of the army may be relied on to give zendous and condial assistance. By a generous supply of ammonition for target practice to coldings where army officers are serving as instructors, the secretary says, it is possible that compounce contests in rifle shooting might in these peconic as popular with some of the contents of our seaboard. He concludes from former reports and a personal inspection of the workings of the system that good results must flow from its adoption. The sucretary says he has directed that in

dopuon The cretury says he has directed that in preparing plans for some new military posts provided for by congress a provision should be made for messing troops by commands instead of by companies

The sat cost defenses.

The attention of congress is again invited to the defenseless can litton of sea cost and like frontiers and liberal and immediate action is recommended looking to the effective defense of our principal seaports. The sec retary say. It would appear now more important than ever that such action should be taken at the second session of the present congress in size of the fact that the last ses sing gave appropriations for the construction of heavy ordinance without heavy platforms strong armored protection and other permanent implacements. These guns and mortars steller finished will be of comparatively little use. The building of modern gun and mortars batteries require longer periods of time than the construction of an arm ment. It would appear the part of wisdow that the preparation of these important components of well equipped defenses should proceed simultaneously. For the beginning of construction or such detense appropriations of \$2.540.000 is asked for to propose

Tel PPDOES
Two hundred thousand dollars is asked Two hundred thousand dollars is asked for the repair and preservation of existing works for the purchase of tory closes and submarine mines and the necessary appliances for operating them for experimenting to ascertain the best of the many torpedo instruction and for the continuing of the construction of necessary casemates cable galleries, etc. For working the submarine mine and torpedo y tem \$1.90.000 is recommended in the construction of a torpedo hed for the storage of torpedo material for u < 10.8 mm france of the cost about \$1.000 is recommended.

A POLICEMAN'S STRIN ELLET

Detailed if wings and specification for the gun factory buildings are well in head and will be completed within three or four months when after approved by the board of ordannee and fortification additional proposals will be completed within three or four months when after approved by the board of ordannee and fortification additional proposals will be invited for complete githe work. It is expected that the machines including the larger ones, which may be of a lad design will be completed that the machines including the larger ones, which may be of a lad design will be complete a month of any other proposals will be complete a month of any other proposals will be complete a fatous are now being proposals of the arms bill for the provision of the proposals and throw a projective that will carry a charge each of about 500 pounds of explosive gelatine with full collect proposals. The game will probably be delivered in from six to ten in maths from date of contract so that all games of the work not done by paid inmates of the work not done by grading the month of the transition of the months from date of contracts of the work not done by grading the month of the proposals and for reture solders and he suggests that the con liteus on which they are received be revised. The secretary says. This la

SUICIDE AT SPORANE FALLS.

Charles Bruce Becoming Tired of This World Takes His Own Life.

Spoaks Falls W T Dec 2—Charles Brites aged 25 committed sucede last night. He had in a small frame building mear the residence of J F Valentine with whose fam ly he has bourded the past vear. He was at one time empioned by the felephone Company and recently in the mill of the Spokane Manufacturing and Lumbering Company. A week ago he energed the femiliary of Dr. Essag, taking care of the doctors other Bruce frequently remarked to members of Mr. Valentine's family that He was not worth living and that if he had the courage he would commit such. He repeated these remarks several time with the past wo hereks.

On several occasions he referred to a young alter thing in Mayland who he and we wo it \$1900 and a new days ago he rum rhed to the vas underded whether to got act if it marry her this winter or mon Mr. Veretum stage to that \$4000 girls were serve, and deve dhim to go. He said he well to on know whether he would go not it. There was no sign of any poison, although playsich in were of the opinion that Bruce's death was caused by an opiate, probably morphine. A search of the premises the coved a letter written on prescription banks in Bruce a trank. Following is a copy.

mind. Miss I when the told me that she believed I was lary but I know it. I was as take at the time and did not say anything about It, I ut thought good to all. I lillle telepring about It, I ut thought good to all. I lillle telepring and did not say anything about It, I ut thought come. The tig saw belongs to sam valuntine. Give it to him I borrowed it and did not take it home; et it to him. All my tools are scattered around so you can gather them up. I an boing to leave that if nothing prevents.

The Mrs Todid referred to in the letter is Mrs. John Todid of the Ladles' Benevolent bociety. Porter & Ramsey are druggists. They say they did not know Bruce nor do they remember baving sold morphine or may other pois-on to my man.

COOR COUNTL'S WILD MAN.

He Terrorizes Women and Children but is Captured and Nent to the Asylum Salem Or Dec 2 Shoriff Harlocker of (oos county arrived here this norming with D Hart the wild man who created great excitement in the neighborhood of I mipro-city for two or three wicks before h was captured and committed to the insane asylune.

asyluin Hart became insane about three weeks Hart became insane about three weeks ago, left the place where he was working, and was not seen again for several days, some hunters discovered him in the woods on bouth stough, six miles from Empire City wandering around nearly nuderinging shouting and gest culating in a demonisc manner boom after he mad, his appearance at several farm houses where he demanded food of the frightened women and children.

children.

The wors soon became current that there we as all i man eacht feet high three feet acres a the shoulders with a beard reaching to his knees and heads as large as wash-boards prowling about the naryboarhood of Impire. At 19 the feet Harlocker organ sed a party and started out to search for this strange being. He townd him a fee miles from 1 mg recht. He was captured without difficulty and brught to the a vinual he is a very oranary houring individual and is not at all violent.

THERE IS NOTHING IN IT.

THERE IS NOTHING IN IT.

The Brooklyn Music Francher Will Not Gether Francisco Dec 2—1 New York dispatch received here states that Miss Ella Bucklin has begun proceedings to recover land in this city valued at \$500.000. The land designated far exceeds this amount in value but F. A. Roule in, who had been engaged by her attorney; to search the rocord, states he found her grandfather in early days bought a small amount of hand not be exceed a block or two in the city that afterwards sold it and that this is all the property he his eye or different wards sold it and that this is all the property he his eye or different was administration of the citie. The latter claims he has no known ign of my such proceedings on his just. Carefully prepared statistics are submitted in every branch of the servic demonstrating the reports say, increased efficiency over previous year, and which may be summar ised as follows. During the year "91 per sons, officials employees of department and others were arrested for various offenses against portal laws and regulations. This number includes 90 postmenters 20 assistant postmasters, 32 postoffice cierks 12 ranswappostal cierks 32 letter carners 15 mail lar riers and 9 other employee. There were 123 burglastics of postoffices and 350 arrests for various offenses subject to the jurisdiction of the courts of the United Sines. Forty much burglars and 23 other offenders were arrested, whose cases were subject to the jurisdiction of the state courts. One hundred and seventy one of these offenders were convicted 35 acquitted or discharged and 510 areas.

RECISTERED MAIL SERVICE.

The report says it is gratifying to note that there has been a marked improvement over the past year in the number of compliants of depredations on domestic registered mail and that the percentage of loss is also small. The number of compliants is smaller and the percentage of a cort in tide loss much less. Out 4520 compliants we a received as against 6280 in the list year while the total number of pieces registered increased I 012. ends

Forty four thou and nine hundred and

seventeen complaints in regard to the domest coordinary mail were received and 80,828 is vestigated In view of hearts showing the merer ed

mores it vestigated. In view of hours, at oning the more of number of postage stamps sold during the year do not training the great increase of mail hand of these figures show in provident in the serve. In 5 50 of the complaints investigated the claim of loss was found to be raise. The postmaster general says. At the request of my predecessors an additional appropriation of \$1.0000 was made for inspection service. This was done in order that smaller postothees those of the fourth class smaller postothees those of the fourth class smaller he examined and postmasters instructed by a personal visit of the inspector. This had not previously been done system atically. During the past year 35.83 such offices were cartinly inspected. Mach good has resulted as the department record shows. Greater promptness in making deposits and reports to the department has resulted and a marked increase in its receipts.

slipts Inspectors collected or caused to be de-

Inspectors collected or caused to be deposited in the treasury on account of cases of class t (cases which are not strictly to be called mail depredations) \$1.7 \to 0.5 12 for good service in all its bran hes this additional appropriation of \$100 000 should be research for the coming year. The total number of complaints in regard to fureign man both registered and ordinary was 10 \$55. A considerable nursuae over any previous year but it is also noticed that the number of actual losses is less in proportion to the number of complaints presided. In 683 cases relating to registered matter that the sumber of complaints presided in 683 cases relating to mail 30 to mis call along the mail of the sumber of complaints from the sumber of complaints of the number of complaints. The state of efficiency of railway post office clarks under the standard adopted prior in 1885 are submitted, showing a marked impropriess. The appropries

in 1855 are submitted, showing a marked im-provement. The average per cent of in-troused efficiency of 1885 over 1887 by the re-suits of tests assumited showing 87 50 per cent, for 1897 to 81.50 per cent. In 1888. The

savid the crop eyes are ecasos charten being excused from attendance during the hop picking season. The Indians are perceable and some of them have become citizens and are prospering upon good fars it. The general government should pay for the trids of foid instead for offenses committed by them when not taxpayers, whether upon their exception or not, and not place this burden upon the taxpayers of the adjacent counties. Complaint is made of this,

The various public institutions of the territory appear to be in a satisfactory condition, and \$185,000 was appropriated by the last territorial legislature for their extension and maintenance. Much deliberate and important legislation was passed by this egislature.

Much dehberate and important legislation was passed by this egislature. Among other bills was one levying one-fifth of a mill for military purposes, which thus places the National guard of Washington upon a secure foundation. The force now consists of two retiments of infantry and a troop of cavalry."

The governor closes his report with an eloquent and enthusiastic account of the magnificent scenery of Washington and the rare opportunity which its shores and mountains offer the sportsman.

to use the words of the appropriation. Con sidering that the sum of \$39,000 was appropriate for the construction of a new cell wing and that the contract price is \$9,915, one is inclined to thing the hidding was yery accurate. There was \$10,000 allowed for warden and guards' quinters, and the contract price is \$70,915, one is melined to thing the hidding was yery accurate. There was \$10,000 allowed for warden and guards' quinters, and the contracts it does not appear to the institution were \$125. There were 730,000 brick used in making the unprovements. The juding price for brick in Walli Walla is about \$3 per thousand. This would appear to involve a saving of \$3840 to the territory but when one remembers that the contract prices of the improvements, especially the new cell wing, ruis close to the total sum appropriated this saving is not so appraent. Include under the present management was \$00,000. It is altogether probable that the next legislature, whether territorial or state will be asked to appropriate a large sum to just an apparent deficiency in the list appropulation. The trouble about exceeding the sum appropriated is that the first of it territory is pledjed before the legislature his an oportunity to mily it canto the conlitations which cantof the excess expenditure.

H (Wilmarth of Van ouver is authority for the statement that if the work of con-truction of the Willington school for deto the statement that if the work of contraction of the W. Inigton school for defactive voith is carried on as at present the spropriation of \$30,000 for that purpose will not be ufficient to complete the building. When the bill for this purpo exist before the legistative the sum was reduced from \$50,000 to \$25,000 and it was only after nucle effort on the part of key John it Thompson, then p esident of the council that the sum was restored to \$30,000. There is probably a no more description sistanton in the territory than this school, and every one who has given the subject the slightest investigation realizes what a noble work is being carried on there. The old building is imadequate to most pressing demands for room Doublies no one will object seriously if the appropriation is exceeded. But the fact appears to be that the door is opened to either the incurring of indebtedness for the payment of which this good faith of the territory is pleased without the consent of the people, or the building will be constructed on such a scale that there will be money enough to only partially complete it, and the territory will in a minner be coerced into making an additional appropriation of \$20,000 for the propriation.

The appropriation of \$60 000 for the erec The appropriation of \$60,000 for the erection of a hospital for the insane at Medical I ake in Eastern Washington was made in response to what was alleged to be a necessity evidenced chiefly by the rapidly increasing number of patients in the asylum at Fort Stellacoom. The general impression were strucked to the second the second three second was and is that these representations were true, for the new building at Fort Stellacoom was, when first occupied nearly filled. It was then thought the Eastern asylum would be completed in time to prevent the western asylum from becoming overcrowded. The fact is, however, that the Medical I ake asylum is practice heavily as far from completion

congress the result of their investigations

FOURTH CLASS FOSTOFFICES

I have had the bount to recommend a revision of the law regulating the compensation of fourth class postimisters by which the compensation of fourth class postimisters by which the compensation to fourth class postimisters by which was intended by the act of congress fixing it standard. Through all reductions of potage rates the amount of postage received has runnished the standard of compensation to those officials. They namber 54.874. There has been no read ustiment of compensation in harmony with the reduction of postage rates. Increased labor has been imposed by increased business resulting from lower postage which at the same time, has reduced the compensation.

'The attention of congress is requested to the recommendation of the first assistant postmaster for eral regarding the classification and submess of clerks attached to the larger postoffices. While the free delivery service with its 385 offices has received marked legislative consideration providing careful classification and promotion of carriors and providing substitutes for vacations and holidays and a limitation to but eight hours service per day at a total cost for that service during the current fiscal year of about \$7,000,000, there has been no valed for the cost of clerks in all postoffices of the United States but \$5.900.000 The color for the current year will not exceed forty.

The act of congress, approved July 24, 1888.

THIRD CLASS OFFICES

The act of congress, approved July 24, 1888, attorized allowances for rent, fuel and lights for third class postofiless as frequently recommended by the department. On July 1 1888 1988 offices were assigned to the third class, and under the operation of existing law eighty additional offices were assigned to the third class from October 1, 1888, maxing a total number of 1988. The lumination of said act by which the maximum annual rent for an office of the third class was fixed at \$300, and the maximum allowance for fuel and lights at \$50, should in my opinion be repealed as the best interests of the service require discretionary authority in the head of the department to fix this allowance having regard to local needs. THIRD CLASS OFFICES

FRANKING PRIVILEGES

The postmaster general calls attention to franking privileges, and recommends a revision of the law with penalties for its violation. He carefully reviews the statutes and points out their want of uniformity. Following is his closing paragraph on the subject.

ject If franking privileges were abolished and a regular ailowance for purchase of stamps made instead, every sension and member of the house of representatives would be placed on an exact equality. No one could make

trom the Middle states. At present spok me halls appears to be working hardler and is pirhip spending more money, than any other city in the territors.

The in migration from those Middle states, commond for the manigration from those Middle states, commond for Brown, is very large. There is the usual immigration every fall and spring and then every winter a urge number of families go to a warner clime to spend the season. The greater number of ties people who increasely represent the better class have tee in the habit of spending the winter in Findus. This year, owing to the prevalence of yellow fever in the Southern States. This trick has been divirted westward. Our of twick cignt families I know seven went to the cignt while the rest went to thiformize the city but not near so in my remain our of the winter that would if the city were better upplied with hotel accommoditions. This has been from what I am to the here been justly we crow it. White our next hould be the till the all the city was

taning connection with Trebu fin siction from hedding to Ashland is the rough test in the west but the fine is as good as I over the west but the fine is as good as I over the animal from Tchem it to Ledding, and probably next year from Roseburg to I orthaud.

When did your connection with the Western Union began?

In 1840 when I began work at the key I worked my way up until in 1889 when I may made general superintendent which place I have since retained. My purishestion comprises what is known as the central division which lies south and west of Pennsylvania?

Col Clawry comes to the coast including Portland, about once a year, his last text being made in October 1887.

During that year's said he, '87 per cent of all the radicoal building of the country was west of Pennsylvania. Our work, of course is in pretty much the same proportion. We follow the radicoad up always, and offtimes are in advance of them. E-perially in the Pacific state and territoria we

was west of Pennsylvania Our work, of course is in pretty much the same proportion. We follow the ratiroads up always, and oftenes are in advance of them. E-pectally in the Pacific states and terrifories we have lines on the public linguagys. I have spoken of the section from Redding to Ash land as the worst in the West to build a line over. The line has been so well put up how ever, that we do not anticipate much to ottle in maintaining it any thing like that which the line from here to Astoriar equires. I one an easy that we have been giving no little thought to this line and he ves some improvements in contemplation which if carried out will materially lesson the trouble it occasions.

What has been the effect of Mr. Gould's entrance into the Western Union.

Of course toold is a very busy min and does not have as much to do with the mar agenin to the company as many people imagine. His influence however is always on this side of enterprise and improvement. He is one of the most theral minded business men I ever had anything to do with On questions of new lines or improvements his vote is always in the diffrantice. It is not a little due to his influence that telegraphic rates have been so regularly and system thealy reduced business he toris regariles of come ching. If we does the coast service compare with the Listens.

If we doe the coast service compare with the Listens.

An Old Man Tracked and Taken Prisoner on North 1 line

The S₁ angle Record gives the following account of the capture of a horse this? Monday angle a couple of men who live beyond Spokane Talls about five nule, passed through town with an old man over 60 years of age whom they arrested while attempting to steal a team of horses. From the mager information at hand it was some thing like this. The old man had been discharged from the employ of the man whose horses he stole, but the owner missed them almost immediately, and at once started in purs at with the aid of another min. All in they traced the horses thinks by mins of a lantern through the streets of S₁ ok me I alls and south through the courty and on Monday afternoon overtook him on North Pine, where he was taken he is tout, and miss at dark he was taken through the only set the only in the only interest. try and on Monday afternoon overtook him on North Pine, where he was taken in a tody, and just at dirk he was taken through spangle, one man riding in front leading his horse and the other man riding behind hold if g a double-barrel shot, un

THE AMERICAN GIRL

London Laster in New York World.

Several of the new p-pers have taken advantage of the Chamberl an intringe to call attention to the way American gris are cutting out the Figl sh gris in the matrice many dimerican gris are cutting out the Figl sh gris in the matrice many dimerican the familiar and the suggested that there are more one as for this I should say that the man reason is that the American gris is not so mass? "As her I glish sister and that she is brought up to run down her own game. In Englind the notion still prevails that egirl is sure to get no michel if she has not a mother or sounting, of that out there nows. She herself resent the ard there nows. She herself resent the aid takes to out in fast conver aton and I may ways so that she become a is, dur max ture of the doll and the tomboy. Her should link in the malbest of small tail. Her is one is always by her with pulpade suggestions of marriags which frighten out all her sintors. The girl dresses bedly indigenerally with a merel alous gradienes. She here is not so give her netural advantages a fair time. At one moment he as pears in the hidous grammats of an extent on at a still an other arrived in the minest for the six parts of the read at still an other in the white and himp markin of innocente. There is always an air of effort in her get up and of an effort which is a fail ure. Now the American girl has natural taste. Her clothes seem to selong to her, and whetever she may went is put on to the best advantage. She knows how to talk agreeably and, being shays quite at her ease, puts all those with whom she is thrown at ease. The day of the begal and-builter tomboy is over hanglish girls must real zithis if they want to get mairwed, build one

further reason why the American girl is preferred. Id America the mun who has some and daughtess makes no manuful difference between the two. In England, even when a man is not so sulve at op hi, everywhing apon his eldest son, he gives the sons more than the daughters. The result is there are more American girls with money than English girls and a title of novely the fact that a girl can jut her own way condines to marriage. If I had four daughters and four sons I should were I it I divide by money equally between them at my death and if I were modestix well of I should leave more money to the girls than to the boys for a boy, if he be not a fool cut make money produce more money whereas a crit mich can. To neet the American mas I in there fore I would suggest that our girls take the American girls as models and that purents do not even our finness the list. American girls as models and that pirent-do not give any financial preference to their brothers over them

children are analytic rather than synthetic Henre the unit in writing should be the word rather than the letter, and the sentence rather than the word.

Many expedients must be resorted to in order to cultivate a love for this emmently practical, but sailly neglected art. Do not have the writing lexercise immediately after the recesses or knoon intermission as the children are then too much excited over their plays to be in a fit physicas or mental condition to do the subject justice. Wait until they are calm and rested before you ask them to get their copy books. Have the copy books and p as collected by monitors as this will economic both time and money. Many other very excellent suggestions were offered on this branch that are equally good.

THE HIGHBINDEES CARNIVAL.

The affray which took place in Chinatown yesterday afternoon does not differ material-ly, in its details from what occars periodicaly in the low Italian quarter of New York city, where low Calabrians and Newpolitans use the revolver and the stiletto with absolute recklessness and defiance of the law; but all such onirages on law and order sungest the finquiry, what is the remedy? One of the subset effective remedies would be the arrest policy that he emitted a year ago.

of every Chinaman concerned in yesterday's control weapons, and the arrest and search of very Chinaman, suspected of earrying concealed weapons. So far as the aftery itself is concerned, it is the natural consequence of the failure of our courts to punish the highander assessins who have hitherto outraged the law. They have been tried, and they have been convicted, but a case of a China-man convicted of murder or an assault with intent to kill seldom gets by our aupreme court. Justice Thayer always manages to manciate the opinion that it is hardly justiflable for a jury to convict a Chinanan of murder upon Chinesa testimony alone, and as no other testimony is obtainable, convictions of Chinese assassing are almost impos-

the outbreak of yesterday is the natural semence of the falture of the courts to punish f Chinese murderers by the courts ould do a great deal of good. The detective force of this city seems to be absolutely worthless in the matter of ferreting out Chinese criminals, except in cases of offenses against property. Would it not be well to nose detective, who, for our would the wining to work secretly that only most secret that lawless celestials to ju-tice. The great mass of our Chinese population are peaceful and have adding, but they have bein ruffinis, like other low classes of people, and there ought to be some practicable way of universally distraining these people and of purishing these people and of purishing distraining these people and of purishing se found under any circumstances carrying concealed weapons without a legal ner A systematic effort on the part of our and detective force, reinforced by Chie informers, ought to result in the arrest of the assassins of yesterday's affray and course such an outbreak as this pursting out in daylight in a street frequentreacd by other than Chinese pedestrians, is unparalleled outrage upon public safet e participants in this affray ought to ind can be ferreted out and can be convicted and punished if the jury will dismiss from their minds the absurd idea that it is not justifiable to convict a Chinaman upon upsup-ported Chinese testimony.

SHERIDAN IN OREGON.

The Personal Memoirs of Gen. P. H. Sheridan, U. S. A., have just reached us, and include a very interesting chapter con-cerular his early military life in Orogon, from which we shall publish lineal extracts in the next lesue of Transumpay Oracudatan. Sheridan arrived in Portland, Oregon, October 9, 1855, and oncamped opposite Fort Vancouver on the south bank of the Columbia on the farm of an old settler named Switzler. In October, 1856, the Yakima war broke out. The expedition to punish these Indians was commanded by Major Cabriel J. Rains, an incompetent officer, who joined the Confederates during the war, and his derates during the war, and his command included a small body of regular troops and a regiment of Oregon mounted volunteers commissible by Col. James W. Mesmith; afterwards United States senator rom Oregon. In this expedition Sheridan for Indians and drove them pell melt becbrilloins's camp, where both sides laughed at the fright they had given each other. This expedition was a wretched failure and charges of incompetency were preferred against Major Rains by Capt, Ord, after-

wards Gen. Ord., who commanded the army of the James before Fetersburg.

In the Indian war of 1836 Lleut. Sheridan served under Col. George Wright of the Ninth infantry, whom he describes as an able officer. In this campaign he emptured thirteen Cascado Indians, nine of whom were afterwards hanged for their participation in the massager at the "blockhouse" gon at this time Sheridan mentions the hanging in cold blood of the family of a friendly Chinook chief, Spencor, the interpreter of Col. Wright. His wife, two young boys, three girls and a haby were hanged by some white barbarians. The habe was strangled by means of a red silk handkerchief taken from the neek of its mother. These poor creatures were killed in the splitt of diffuses reviews best from the in the spirit of aimless revenue by citizens who knew that their victims were the family of a notoriously friendly and peaceable chief, who had nothing to do with the "Block House Mussacre." Spencer's family had walked in to the settlement under the protection of a friendly alliance and Sheridan declares that this wholessle murder of innocent and helpess victims was the men nnocent and helpiess victims was the most destardly and revolting crime he ever knew

dastardly and revolting crime be ever knew to be committed by whites.

Sheridan was stationed in April 1867 on the Grand Ronde reservation in Yamhili county, relieving Licut. Wni. B. Hazen.
Capt. D. A. Russell, who was afterwards klifed under Sheriden at Winchester, was Sheridan's superior officer. eridan learned to speak "Chinook" and

was in consequence able to get along easily with the coast tribes. Sheridan describes Capt. Russell as the ablest manager of Indian sffairs ho ever saw. Sheridan started East the 1st of September 1861, and serving New York in November 1861.

CONGRESS.

The Fiftieth Congress meets to-day for its The Fiftieth Congress meets to-day for its last term. Its section will not be eventful, for it is short and air verrel questions of connecquence will be turned over to the next congress has proposed in the turned over to the next congress has apparently a republican majority, and if the present democrate majority in the lower house are ordinarily airse they will lead the responsibility of all unsetted public questions upon the shoulders of the next congress. The democracy will be critics in the prest congress and the republicans will have

that any legislation or consequence completed.

Scheral eminent republican senators expect that, according to the agreement in the last canons which settled the matter of calgournment, the senate tariff bill will be adjournment, the senate tariff bill will be last our State will excel any portion of the continent for its capacity to produce and its assumed up immediately after the reassemble of the most satisfactory test of prosperity is

one half cents instead of the present duty of one cent a pound. These senators think that other important amendments will be added and that the bill will go to the house where it is expected it will be passed under the lead of Mr. Randall, who should be able to rally the protection democrats to its sup-

port.
This is an expectation that we do not expect to see realized. The policy of the present democratic house will be absolutely observed to be according to the present democratic forms. americe. Mr. Sandail has no strength in the house, at least not sufficient to pass the republican senate fariff bill. Nothing will youd sparring for wind by noth parties. The republicars will labor to force the demperacy to make a record that will damage them for the future and the democrats will flabustor, probably with success, to avoid making a record that can be quoted hereaf

ter against them.

The president's mussage will probably be delivered this afternoon, and is likely to include a reiteration of his sectional tree trade

OREGON'S PROSPERITY.

A fair comparison of the state of Oregon and the Pacific northwest in general, with the most prosperous of the United States will show that our region has the advantage of any other and our people are more pros-perous than the average or indeed of the most fortunate. In production we lead all in cultivation for a generation past profilices as well as the new lands of Dakota fr Ne-braska. These facts are often told and received with incredulity. The world simply does not believe that such things can be true and unicitef-prevents immigration.

The last wheat crop of Oregon-morning the western portion of our state-was un-doubtedly the largest as to yield per acre trown in any state of the amon. Averages were pulled down by the lesses yield each of the Cascades and there are always men who showelly work and get poor crops as a consequence and these returns are subtracted. from the more ample harvests of their active neighbors. Go through the farming coun-ties of the Willametto and take a ceneus of their fields averaged twenty-five bushels to the acre and many times exceeded forty. The Observation has given an instance where a farmer near Abauy, whose winter wheat was frozen out, replowed and sowed to was nozer of reproved and sower to spring wheat in April and gut forty to forty-six bushels to the acre. That was one instance, and not an uncommon one, for thousands of acres were resour and brought large harvests. The total yield of the stock of all the roads leading to this city or to Sound per s are kept busy transporting wheat to these points for shipment.

The wheat crop is our staple and may be

taken as the criterion of prosperity for a large section. In the Inland Empire it requires three crops to subdue the sod and sod and the yield increases for several years after. The soil comes to its best about the time that soil in the Western states has got the world over, and we have here the prost enduring and profitable solls known in the

had is capable of and to put it to its best uses. The wool olip has been a very import.

When the legislature is asked for money to ant factor in our prosperity in the past. Prices are lower and that makes a great difference in income, but gradually wood has come up, for the demand has made prices improve. The price of wheat has advanced and has materially helped farmers all over our region. The hop market is abundantly rewarding those who have grown hops, and in this product we have another staple that is becoming a source of profit,

hops and is producing in much greater yield than is known in other countries. ity, too, is superior to that of hope grow many other condities, and so far we are free from lice and mold or mildew that are so de-structive. Whether we have such immunity on account of climate or not, so far we ha ok a squadron of Nesmith's volunteers it, and our hopgrowers reap prodigious har-diane and drove them pell mell back vests, as do our producers in nearly every line's camp, where both sides laughed line of agriculture. Hop-growing in this section is proving very remunerative, and fortunately the world is willing to pay well

Another item of farm income is the fruit-luiness of our orchards. This sine of pro-duction is not yet well organized, but is commencing to add to the general income that from henceforth will increase in geo-metrical progression, as the rullions of trees annually set out shall come into bearing. We must have more cannerles and more driers. The experience of those who have raised primes is favorable and they report In illustration of the insane hatred of the Indians which pervaded the people of Oregon at this time Sheridan mentions the proof of the people of Oregon at the price has been satisfactory for a good article. So that fruit growers are be-

of life. We have been so remote from the world that progress has come slowly and sometimes a little late, but it is coming, or has come, and Oregon is assuming the importance it is actually entitled to. Making butter and most are two very important items of production and we see that the markets are supplied well with choice ments and grocery stores are able to command the best

grocery stores are able to command the best of creamery outter for their customers.

Parmers are learning the value of the small fixehs of farm product, and are making their gardena and poultry yaras may the grocery bitts and support the family. Economy of a genuine type is coming into use, and people are learning to save as well as to produce. There is economy in the flock of sheep, that act as scavengers to cradicate weeks as well as to yield mutter and most weeds as well as to yield mutton and wool. The sheep flock supplies meat of the most wholesome kind, and pays larger on the investment than almost any item of the farm. vestment than almost any item of the farm. Then Oregon furmers produce more or loss of stock on their farms at trifling cost. The mild winters enable them to keep a few mares and cows and derive a fair income from the increase. There is no line of production that will pay better than to raise pigs and fatten them. Here is a chance for improvement, for we import pork products in large annulist, where we should enable. in large quantity where we should supply the mining regions to the eastward that need a large quantity. There is room for im-provement in many respects, but it is eviprovement in many respects, but it is evident that Oregon farmers are making satisfactory progress. To be sure there

for improvement, but that will come as time passes.

To sum up the situation, we can challenge mext congress and the republicans will have the responsibility unless the democracy manage in the meantime to steal clough and excellence of products. Colifornia can not surpline takes piece for the holidays the working time of the congress that progradies that any legislation of consequence will be completed.

Softwar eminent republican senators excellence of products. Colifornia can not surpline applicantly the tangent of surpline the holidays the working time of the congress that progradies that we area is to convert large tangent in the surpline trepublicant senators excellence of products. seen in the business of the country, in the great quantity of its products for the year. Everywhere are algue of propertity among the people, merchants do a good business and they get money for their goods. Money comes from all parts of the country, and every line of business is prosperous. Farm-ers have cash from their harvests, and throughout the length and breadth of the wide Pacific northwest times are good and reasonable prosperity blesses the land. There is nothing that succeeds like success,

THE AGRICULTURAL COLLEGE.

This institution is now rather, more of a farmer's college than it was a year ago unc the copy of Balletin No. 1 received by mail shows that the men in charge of the attition for purposes of experiment, mean business. Several experts are now connected with the station, men whose calucation qualifies them especially for the work they have to do and may expect results as far as they are able to investigate. They are said to be alive to their work and warmly interested in making

it a success.

What is needful now is to identify the college with the farmers of the country and give them cause to feel that they have an institution working in their interest. The whole course of study and line of experiment must be so practical and sensible that the farmers of Oregon can appreciate it and their sone ally; educate young men for the farm; quallly them to comprehend the constituent parts of soils and know how to recuperate soils that are wasted and worn out.

THE OREGONIAN has no prejudice in connection with the Agricultural College, only a fear lest it may not accomplish the good desired of it. It realizes that Oregon farmers as yet feel no identity of interest with its management, and knows that things will not go right until they do. The college helongs to the people, to the farmers most ex-pecially, and to the state and not to Cor-valls, and certainly is not the personal property of the officers who manage it or are its teachers. It has, somebow, always seemed as if this institution did not properly belong to the state and it is time that it was so conducted that the people at large will ready. uize their proprietorship.

Instead of this institution being controlled

by its nominal managers and teachers, it should actually be controlled by the people to the extent that their wishes and good to the extent that their wishes and good shall be conculted always in its management. Men are upt to have their own views, and imagine that the public should be thankful for anything they are pleased to give them, but in this country, where the people are sovereign, their will should be is we to the extent that every effort should be made to conduct public institutions in their integral. conduct public institutions in their interest. The people of Oregon are satisfied with their properly occupies its field as the State Uni-

versity does that of classical editection.

The legislature about to meet is likely to have something to do with this college, if only to appropriate means for its continuance. It is right that this should be done if the money can be used for the benefit of the state, as is the inentition. There should be an overhauling of its general course of study; and placing of the right men in the right place. There should be no man connected with it that doesn't possess fitness for the work assigned him, whether as one of the board of regents or as one of the faculty. "The eternal fitness of things" agricultural should be the criterion to go by. Every man should be competent as well as honest; thoroughly capable as well as a man with

support the college it should understand what the money is to do, and what good the college will perform; it is all right that college will perform: It is all right that there should be money appropriated for the purpose of emporting an Agricultural college, and it is only reasonable that a college with that name and purpose should possess the confidence of our agriculturiets. Its board of regents should be netive, energetic, practical, business farmers. No better head than Mr. Isadd can be chosen, because he is a leading business man and actually interleading business man and actually interested in agriculture, but the whole board should be farmers from the different divi-sions of the state, who are capable business dence in immers all through Oregon.

The Balom Statesman now says it was "n well-known and respected citizen of East Portland," instead of Portland, who "said in this city. It makes no effort, however, to get the \$100 which The Oregonian will pay for the name of this "well-known and re-spected citizen." His fellow-citizens here are anxious to know him better and respect him less, if, indeed, he is not a mythical perides when issuing its baseless slanders in the endeavor to injure Portland. The State

Judging from the number of crop mortga-ges that have been filed in the county cierk's office at Pendieton lately, many a farmer in Umatilla county will have a mortgage on his crop that will take an extra good harvest to crop that will take an extra go pay the principal and interest. The average Eastern Oregon farmer has become imbued with the idea that he must run in debt in order to prosper. A contrary view is getting a strong foothold in the Willamette valley, and as a result farmers in this section are growing more prosperous each succeed

THE R. P. THOMPSON ON LAND. ifter Several Entille Efforts the Bost is Par on

For nearly three weeks the R. R. Thompson has been lying at anchor near the east approach of the Jefferson street ferry preparason has been lying at anchor near the east approach of the Jefferson street ferry preparatory to a general overhauting and fixing, up. It is the intention to put the boat into first-diss condition for the summer season. The heavy cross beams supporting the boiler and engine with the replaced by new ones; and other minor repairs, wherever needed, will be made. She will also be given a new coat of paint, both inside and out, and when she risumes trips she will go out with a brand new dress neone of the queens of the river. When an Obsconnan reporter got showed of her yeslerday afternoon he found that both the boiler and engine had been taken apart, and the hundreds of pieces were laid about in neat little piles. Everything was in readiness for immediate work, only there was some difficulty encoun ered in getting the boat on the dry dock. The windiasses with accompanying blocks and large roper had been secured to pull the penderons resset out of the Williamette. There times had the attempt been made to draw her out, and three times were the strious undertakers of the work obliged to chronicle a failure. The fifteen horses which had been secured to furnish motive power worked brovely, but the large and massive beat which could ride the wave and have the tempest, refused to ride the wooden ways.

Yesterday afternoon the fourth attempt

masure bout which could ride the wave and have the tempest, refused to ride the wooden way?

Yesterday afternoon the fourth attempt was made, and much to the joy of all, the attempt proved successful and the vessel now stands on terra firma, at the mercy of carrenters, painters and mechanics, who will at once coumence operations upon her.

It was about 3 o'clock yesterday afternoon when the men repaired to the scene to make a final effort to draw ashore the large steamer. The ways had been coploasly greased, and two more horses had been secured to re-inforce the motive power, ast was high tide, this was also taken advantage of, and the work once more commenced. The usual delays were occasioned by breaking ropes and slipping pulleys. These matters were remedied, however, and at about a quarter of four the boat began to move. First, as the ropes began to get taut, the boat gave a few squasks. Then it began to move by jerks and by slow degrees, more and more, it continued its ascent up the incline aided by the grease placed therenof that purpose. The work continued mail about 6 o'clock, when it was thought enough had been done for the time being. The vessel now stands well out of water, and the work of repairing her interior can be at once proceeded with.

A GENUINE MUSICAL TREAT. The Pamous Boston Quintette Club at Hew Park Theater To-Right.

Where music dwells
Engering, and wandering on as loth to d.e.
Like thoughts whose very sweetness yieldeth
proof
That they were born for immortality
Wordsuprish.

The famous and only Boston cultatele club will appear at New Pork theater to night. The following is what they say of PORTLAND AND VICINITY. bem at the "Hub" of the Universe: them at the "Hab" of the Universe;
Such music as the Boston Quintette Club
revealed inst evening at Music half is heard
wery selden in a tifetime. The latener is
arraptured by the ravishing taxes, and
marvels that such perfection can be reached
by human manipulation. The music that
the quintette produces cannot be described;
one may feel but may not express the
effect; it were as easy to express too sighing, meaning, whispering and waiting;
nedences of a midaumular's tempest, as to
all of how the music last evening sounded.
Freey number on the programme was a sell of how the nursic last evening acunded. Freey number on the programme was; a height, and a more appreciative addence revergathered in the hall to show its despit. Almost every number received an moore. It is impossible to say which leaved most, for after every selection the lossed most, for after every selection the losse looked as though the last was the best of all. Every sole effort esemed the perfection of instrumentation, and probably nothing better will ever be heard and a power of the last was the best of all. Every sole effort esemed the season necromanthe power, over his instrument, so mystic were the harmonic effects solution on a astonishment; are thended while listening to such missed discourse. Minimizion and asternishment are hiended while listening to such musical discourse. Wondrous beyond all is the violingello work of Mr. Blamuslery; it surpasses belief what he can do on a 'cello. Miss Carpenter has a Fare suprano voice, and last night after her rely of two days from her come supranrest of two days from her ocean voyago,
was revealed in its full power and beauty;
it is of the tremute order so highly, prized by
some. The audience was very much larger
than the diagrum had indicated, and one
more pleased has never left Music hull.—Bosfoa Herold.

The sale of reserved seets has been mousmally large. The prices during their stay in this city (only two nights) will be as follows: Reserved seats \$1 50; general admission \$1; balcony 75 cts.; gullery 50 cts.

BRIEF MENTION.

HAWTHORNE AVENUE AHEAD.—On September 9, 1837, a truct of land was purchased on Huwthorne avenue at the rate of \$200 for a city lot 50 by 100 feet, and a few days ago a portion of it was sold for \$750 a lot, or more than \$4000 per acre, making a profit of nearly 20 per cent, a month on the investment, the property being two miles, distant from the center of the Morrison-street bridge draw. There would be nothing particularly noticeable about this stelement were it not that the purchaser, who invested several thousand dollars in this property, is an old coastor, owning several lots in San Erancisco, but after several years' experience on this caset has decited to build himself, a lovely home in our nicest suburb. This purchase is made more remarkable by the fact that the gentleman making the purchase had looked over the east and west sides carefully for a couple of weeks before deciding to buy in this direction. Is it unitair for us to predict a profit of 8 per cent, a month on our Second Electric addition loss on Hawthorne avenue, which we are selling at \$10 down and \$10 a month, without interest, or at the rate of about \$1800 per acre? The Portland Real Esiate Company, 414 Washington street. HAWTHOENE AVENUE AHEAD, -On Septem-

HIG BUSINESS-NEW BLOCK.-Mr. Pratt, of now in San Francisco, writes to a gentleman in this city "that business is immense, and that they are forced to turn people away from the doors." so great was the rush From Mr. Fratt's letter it is learned that the southeast one-fourth of the block at the corner of Seventh and Frankill streets hand been purchased by Messrs, Wetherall and Fratt. Mr. Frattisties his is thoroughly satisfied that it is the purpose of Judge I. A. Marquam to build a theater on the block just north of the big hotel. So well satisfied was the writer of this fact that it was concluded not to puroinse the other one-fourth of the block. Had not Messrs Wetherali and Fratt been convinced of this they would have purchased the east half of the block, and erected thereon a fine opera house. Mr. Frist expects to return to Portland-next May and superintend the disciption of a business block on the ground recently purchased. now in San Francisco, writes to a gentleman THE OBEGONIAN SENds a communication to

BAD CONDITION OF STREETS.-A reader of this paper in which he complains of the terrible condition of some of our steets. He calls expecial attention to the condition of the streets south of Washington, many of which, he says, have holes in them from the two two and a half feet deep. He also calls particular attention to the corner of Thirteenth and Streets, and respectfully requests the city fathers to take a look at that place themselves. It is a wander," he says, "that there are not more accidents in wegons heing broken. I never pass that way any more and would rather go three thoese out of my way than run any risk to my horse or wagon." The correspondent writes his very exasparated vein, and if there is any ground for the hurden of his complaint the city authorities ought to take the necessary steps to make needed repairs.

A Losg and Short Haud Charse.—With this paper in which he complains of the terrible condition of some of one attends

A LONG AND SHORT HAUL CLAUSE.-With the change of time on the narrow gauge which takes effect to day, we notice that paswhich takes effect to-tay, we motion that pus-sengers may leave Jefferson street depot at 7:15 A. M., reaching White's, 42 miles, the junction with the O. & U. (west side), at 9:59 A. M., 10:74; 58, in time to take the express-train for Independence and Corvellis, saving 42 cents, the O. & C. fare from Portland to White's, 54 miles, being \$2.18. As this train on the narrow gauge is strictly a passenger train, it will no doubt be well patronized, having the shorter missage to west side points and nothing to prevent it being a ways on time. The four cents per mile as hand by the Hoult law seems to work well in this instance.

ATTENTION is called to the elegant display of ladies' suits which are displayed in I. Selling & Co.'s windows. They comprise the latest and most elegant goods and trimmings of velvet plushes and braid to match and are offered at popular prices. All is asked is to notice display.

OH, WHAT A MOUTH.—There has always been a doubt as to the exact variety of fish which swallowed Jonah. Theke-are some who have grave doubts in regard to Jonah having been awallowed at all, or perhaps more particularly as to his having been allowed to go asbore at the said of three days, but this cuts no figure in the case. A fish send over from Yaquina was seen at a market here Saturday which undoubtedly belongs to the species which swallowed Jonah, if he was swallowed. Its head was the biggest part of it, and its mouth extended from ear to ear, and the ears were set clear back on the hank of its neck. A fish of this kind forty or fifty feet, long could swallow Jonah and a small vessel such as was used in Jonah's time on top of him. It was what is known as "cultus cod" and was evidently made to est rather than to be eaten. OH, What a Mourn.-There has always

made to set rather than to be eater HER LAST WISH GRATHUM.—Mr. T. F. Moores of Kanses City arrived here Satur-day morning, accompanied by his wife and day morning, accompanied by his wife and child, to attend the deathbed of his sister. Mrs. YMn. McGuire. Her mother came on some time since, and when Mrs. McGuire saw that the end was approaching, ahe expressed a wish to see her brother. A dispatch was sent to him citating that his sister was very low but said she would live till he could get here. He started at once and arrived at 7 o'clock Saturday morning. His sister was fully conscious, and their meeting was most affecting. After greeting her brother and his wife, and curressing their child, she said that her last wish had been granted. She then asked to be placed in a chair, and at 12 o'clock peacefully passed away.

Frant is Rose Guittian.—Mr. Alifed An-

FRAY IN ROSE GUITTER.—Mr. Alfred Anderson has in his garden a standard rose tree which has twenty-four different varieties of roses budded on it. Some half dozen varieties are now blooming and many others are budding. From a bad which was put in about the middle of December and which has made a growth of about eight inches, Mr. Anderson yesterday out a beautiful fully developed rose of the "Souvenir Mathanison" variety, which he will send to a rose-growing little East as a sample of what Oregon can produce in the way of December roses. It should be said that the stock on which all these varieties of roses are budded is about ten feet in hight and is an inch and a nati in diameter at the butt.

been made at this office in regard to the irbeen made at this office in regard to the irregular trips made by the steamer Mikade between Portland and St. John on Sundays. It is claimed that the little steamer is trequently chartered by hunting parties, and goes off down the river; that no trips are made, and there is no notice posted up at the landing to notify persons to that effect. Yesterday two ladies and a gentleman waited several hours at the landing for the boat to carry them to St. John, but it falled to put in an appearance up to a late hour in the afternoon. The gentleman stated that there was, no notice informing the public that the boat would make no trips.

Stoppin a Ruyaway.—About 11:15 last

Storried A RUNAWAY.—About 11:15 Inst night a team of horses attached to a hack came tearing down First street. At Samon they made a short turn down to Front, nearly overturning the hack in rounding the corner. At Front and Main streets they were stopped by Robert Fay and Frank Fernington, the latter of whom had chased them some distance and succeeded in catching one of the lines and bringing the turnout up. The driver of the hack soon appeared and took charge of his property. No damages.

Ma Coursey's Coursers—The second of

and took charge of his property. No damages.

ABOUT THE ENIGHTS OF LABOR. Talk With Master Workman Galvani of Spevans-Order Growing Trades Council.

the summit of the constant monature takes in the Okanogan mining district. In my labors as an organizer I find that unusual interest is being manifested in the Knights of Lahor organization in all parts of the country. At Okanogan there is an organization, although not yet officially recognized by the general assembly. If will soon be officially organized. At other points also organizations are soon to be periethed. "What do you think of the present position and future of the Knights of Labor as an organization?"

"What do you think of the present position and future of the Knights of Labor as
an organization?"
"I can only say that the Knights of Labor
is the best organization ever formed. It is
the most reasonable and the most conservative. Contrary to the erroneous suppositions
of many who are not acquainted with the
objects and workings of our order, the
Knights of Labor do not wage war on capital. Nor is our organization in any way
antagonistic to capital. All that is asked
and worked for is just rights, and as these
domands are reasonable there is no doubtbut they will be gained. It is true that there
are marchists and communists who have
been connected with the order, and have
thrown discredit upon it. These extreme
elements do not sympathize with our cause,
nor do we with theirs. The organization is
last gotting rid of them, and great care is
exercised not to get any more in. The
Knights of Labor as an organization is growing and increasing in influence."
"Is there not an antagonism or cla-bing of
interests between the Knights of Labor and
the Federated Trades acsembly?"
"There is not so much as people through
some minor squabbles between there organizations are led to believe. Whenever there
is any were or discord engendered between
the Knights of Labor and other trades as

izations are led to believe. Whenever there is any war or discord engendered between the Knights of Labor and other trades assemblies it is generally done by wire rulting from outside parties for the purpose of injuring our cause. The laboring men are more and more coming to the conclusion that without co-operation and consolidation they can never gain the objects for which they were organised. All labor elements are more and more heginning to work in harmony. In Spokane we have lately organized a trades council."

cit?"
"This trades councit is a consolidation of the K. of L. and other trade organizations, In it are represented the carpenters plasters, typographical unions and in fact all the trades unions. This co-operation of organizations answers a good purpose. In the first place the trades council heids open marchings by the process of a granularing the public.

Mr. William Galvani, a man prominently known in labor circles at Spokane Falls, passed through this city en route for his farm in Washingtoni county yesterday. Mr. Galvani is at present master workman of Spokane assembly, K. of L. No. 7652, and also secretary and treasurer of District as-

Spokane assembly, K. of L., No. 7652, and also secretary and treasurer of District assembly No. 249.

In conversation with an Ornsonian reporter Mr. Galvani stated that the organization of the Knights of Labor at Spokana Falls is in a flourishing condition and that the membership keeps steadily increasing.

"Our assembly at Spokane," he said, "has at present a membership to over 300, and what is more gratifying still is, that the larger per cent, of them are of an intelligent class." REATTERING VOTES.

PORTLAYD, Dec. 2.

To the Editor of The Orromant:
May I ask why sixty-one voter in this state are counted scattering in the official statement of Secretary McBrido? In this county there were a number counted scattering when to my knowledge five votes were given to persons supposed to be Cowdry electors, one for Curtis and one for Leckwood. I learn that the twenty-one votes counted as scattering from Malheur county were for Cowdry, the united labor candidate.

[P. M. C.

[Presumably because the county canyes-

larger per cent, of them are of an intelligent class."

"How is the organization in other parts of the state growing?" was asked.

"The same can be said of other towns that is said of Spokane." replied Mr. Galvani. "There are several healthy organizations in the eastern part of the territory. Our district comprises all the territory. Our district comprises all the territory extending from Wallula, on the boundary line of Oregon, to Lake Chelan, in the northern part of the territory. From there it extends over the summit of the Cascade mountains and takes in the Okanogan mining district. In

WESTERN UNION OFFICIALS. Colonel R. C.

A MODEL JEWEERY STORE.

There is a distinct pleasure as well as much novelty to be able to go into a juwery store and find overything in the line the mind can conceive. As a general thing our jewelers may know all the ins and onts of their trade, but they are careless in selecting their stock and you will generally find that some line of goods had been neglected. The public of the Northwest have long appreciated the effort and enterprise of L. C. Henrichsen, and one can find at his establishment, 149 First street, a full and complete line of jewelry in all its branches. The care and attention he has given to the diamond department of his business has given him the largest and most complete election over exhibited in Portland. Besides the enormous stock of diamonds, watches and jewelry he carries, he has just received direct from European factories, an elegant stock of novetites in silverplated ware. The patterns are entirely now and comprise tea sets.

from European factories, an elegant stock of noveities in silverplated ware. The patterns are entirely now and comprise tea sets, berry sets, cake baskets, wine sets, lemonade sets, small sets, frith dishes, cream plitchers and sugar bowls. His exclusive line of French clocks in black marthe and white only, have been selected with great care for the holiday trade. The public can not fail to get what they want if they will only call and make their selection. Remember his motto: "Legest Stock and Lowest Prices,"

zations answers a good purpose. In the first place the trades council heids open mentings for the purpose of acquainting the public with the objects of labor organizations, and through a general discussion of all economic questions it educates the public mind. If also erves as a board of arbitration. If my trades union has trouble of any kind, the matter is referred to the committee of appeals and grievances, consisting of one delegate from each organization represented in the council. If the trouble stil fails of an amindable adjudication it is turned over to the body of the rouncil, whose decision is final; Union ticket office, corner first and Gak streets—Orașon Railyan, & Navigation Company, Union Pacific railway, Orașon Short Line. Pullman rescreations mada for Northern Cache and Orașon Short Line. G. S. Tuylor, tieket agent, Potland, Orașon.

Two Lucky Men.

On the 17th of October this paper innounced that lightning had struck in Vancouver, or the same thing, a streak of luck that made some excitement. In September M. C. Harell, a laborer on J. C. Proebstel's farm, hought one-twentieth of ticket No. 46.755 in the Louisiana State Laglery, and that number drew the big \$300,000 prize on October 9. J. C. Proebstel owns, half of this Harell ticket, which entities the bolters to \$15,000. The ticket was deposited for collection with Wells, Fargo & Co. Express Company, at Portland, Oregon. The collection was promptly honored by the Louisiana State Luttery at New Orleans, and the memey, gold coin, is now in Portland ready to be prid over upon proper receipt for it. Both the incky men are honest grungers, and, as their heads are level, will know just where to put their unexpected wealth to do thein the most good.—Vancouver (Wark. Ter.) Independent, Nos. 7.

ments of uncertainty embarrass the movement of the company and paralyze its freedom of action.

It is as important to the government as to the company, says the report that all necessary liberty should be given the managers of the corporation to develop the resources upon which the future solvency of the road must depend. It is not possible it says that a naway company situated as is the Union Pacine shall remain any considerable length of time in the same condition. It must move in one direction or another. It must miprove or detertorate.

The government directors assume that some settlement should now be made and command the conclusions of the majority report of the commission appointed under the act of March 3. 1887, as sound judicious and gractical and they earnestly hope they will meet with the approval of congress. By adojung those conditions they are of the opinion the government will secure it's claim beyond any reasonable risks. Its hen they assert will be placed in such a shape as to make enforcement possible in case of default in the payment of the interest and every year in the future will make the ultimate payment of the principal more prolitable. Concluding their report the government directors say of ar as they have been able to accertain the Union Pacific has been in the past year managed with indelity and inchence. Everything has seen done that could reasonably be expected to help the road in the line of improvement and satisfy the just requirements of the government.

The report is signed by A. C. Haskell M. A. Huna. F. R. Condert. Franklin, Mac. Veggii and I. W. Savage. government directors.

CANADA AND THE UNITED STATES

Senator Sherman Says Annexation is Noc-essary to I reserve Priendly Relations.

'N York. Dec I — In an interview with the or a W shington correspondent Sena-tor Sherman, in speaking or the union be tween Canada and the United States, and Mybeliel in the future common destiny of the two Pargish speaking nations of Amer-ica will never waver. I washed to form it by my militre to find a less radical remets, for the two Fig is a speaking nations of America will never waver. I was led to form it by my ridure to find a less radical remedy for the perennial occasions of strough dispute between the two countries. The fisheries dispute and question of right of free transit of American, goods over Canadian railroads are types of the disputes that have weed the 180 million for a century and will occurred. American goods over Canadian railroads are types of the disputes that have sexed the two nations for a century and will continue to disturb them so long as the present conditions easi. To get rid of these questions we must get rid of the fronter. I studied the jops all for commercial reciprocity only to be consumed that it was illusory and impracticable Political unions; another thing The advantage it offers is more equal. Canada would get in it all the advantages reciprocity promises her Advantages reciprocity promises her Advantages of political consolidation with Canada to the United States is not less palpable and obvious. If less immediate tack will be even greater in the long run. I olitical advantages of union are emphasized by the present troubles over fisher less railroad trained and tended trained and tended the most grave provocutive of dipute and irritation taken out of our diplomatic relations.

Fig. for Sharman continued by saying the state of public feeling is riple for the croots consideration of he question in add no oral cleening is trongest in Manitohi and the Northwest. In this country, the olive type thou would be from the Fest But the prepander are of poly r lays west of he Allegheines and in the South and both these great sections are favorable to the movement. The correspondent points to the ignificance of these otherwise in view of the fixelihood that Sherman may become secretary of state under Harris in

GRAND ARMY AFFAIRS.

The Alleged Defection in Indiana Explained.

Indianations, Dec 1—The so-called split in the Grand Army of the Republic, which originated here, continues the uppermost theme in veteran circles and with the local press. That the movement has been greatly exaggerated by the Eastern press is admitted on all sides here. Col Walker, assistant adjutant-general of the G.A.R. department of Maduna, sent the following printed state ment to the associated press.

of Indiana, sent the following printed state ment to the associated press. I want to enter a protest against the statements and interviews published especially in the Eastern press about a defection among the comrades of the G. A. R. in this department. Nothing of the kind has occurred and the membership was never more united and enthusiastic in their support of order than now. A handful or disappointed, chronic office seekers here have succeeded in getting thomselves advertised throughout the country, who have no standing nor never had in the G. A. R. for that matter. The whole business has been engineered by haif a dozen chronics and at no meeting have they been able to secure an attendance of fifty persons, and not to exceed hill these have ever been members of the G. A. R. can be found opposing the order. On the contrary, scores of contrades of that political faith base personally and by letter demonsted the most of these small right."

THE DYNAMITE CASE.

THE DYNAMITE CASE. prisoned Twelve Years
CHICAGO Dec 1—At the conclusion of the arguments in the Hrodek dynamite case this ovening Judge Collins at once charged the jury Every presumption is in favor of the prisoner If the jury believe the dynamite came into the possession of the prisoner prior to the passess of the law which was passed July 1, 1887, and under which he was inducted they must bring in a verdict of acquittal. They must be satisfied that the risoner procured dynamite since the above prisoned Twelve lears

acquital They must be satisfied that the prisoner procured dynamite since the above dite with felicious intent to destroy human life, in order to convict."

The judge's charge was lengthly and its reading occupied fully half an hour. At ten minutes past nine the jury had agreed. The itomosys harrically returned, the spectators seats were quickly filled up the judge took his seat the prisoner was brought in and the jury filed in and took their seats.

The verdict was hunded to the clerk of the court who opened the paper and read. We, the jury find the defendant guilty a charged in the indictment and fix his jurnsbuned at twelve years in the penitentary. A friend leaned over to tell. Hrodek the verdict but he looked up with a pleasant smile and said 'ick verstene." His face betraved no evidence of disappointment or feat.

Escaped Convict Returned to Jail-Effort to 86 cure a Becount of San Francisco's Vote-

Willa Wa IA Do. 1. Gord Loojer ar rested for the murder of Divis while vehaments protesting his unocence fails to autisfactorily account for his whereabouts on the day of the murder. The day succeeding the murder he met an old acquaintance to whom he comitientially said he had a hell of a high with a mar the might before and had marty killed him. When prayed to locate the second of the fight he said it was the policette stdoom to say there was no fight my where on the str. I have the might be considered.

procure the services of isubin ran diver to at and bring to the suiface what cost the cuts from our matter that the regular session this afternoon the three questions sewerage street improvement and finding a way to get raid of the garbage have kept the members busy for the past several weeks. The latter matter has probably been the most perplexing, for no sooner would a dumping ground be selected than the cooneil would be beauged with petitions from surrounding residents protesting against garbage luing thrown in front of their doors. The council to day voted \$1000 to build a seem on which the garbage will be hauled out into the middle of the bay and dumped overboard. The ordinance closing valoons from midnight till 5 A. M. was defeated, it will be reconsidered at a future meeting.

After the regular business of the council had been concluded this afternoon. Hon W. J. Thompson by permission addressed the body at some length on the subject of a public library. He urged the council to cooperate with the association recently formed for the purpose of establishing such an institution, and asked that a committee of the association next Monday evening. In the course of his remarks he said he would present the library with 2000 volumes of appropriate hierarture. He ai o said much larger quarters were needed and that the present rooms were rowided nightly. The council salected in accordance with Mr. Thompson's request Meesses H. M. Litts. J. H. Houghton and Mayor Druma as the committee.

theres, of grand larceny and bound over for the next grand jury. One day in Ontober he cut through an archway to his cell at the prison on McNell's island, made ropes of his blankets and escaped to Stellacoom in a small boat where he cut his shackles off Luter he was arrested in Portland for a simi-lar offense and in that way his whereahouts were found. He is now sate in the county juit here.

Many people here say the rates of the Southern Pacific convent to a slight reduction it is believed the business can be made to take the rail route as saving time and damage inculent to handling the same hinds of freight from steamer to car which are objects to many shippers.

ALLEGED FRAUD

A Suit in Which the Points at Issue are Badly Mixed.

Hatt in Which the Forms as Jasue are Bady Mixed.

SAN FRANCISCO Dec 1 — Members of the firm of Donnelly Dunne & Company of this city have fited a complaint against Michael & Tarpey, whethen it is set forth that in 1879 Tarpey who was connected with I' Zeite and Cutvich in the smelting and relining bushness became powersed of \$22,000 belonging to himsel' and associates and believing the latter mended sue to for division of the money he induced Andrew Bonnelly, it that time one of the plaintiff firm to execute two promissory notes one to Tarpey's mother and the other to his sister for \$1100 cach singing the firm's name mother and the other to has sister for \$11 000 each singing the firm's name there to making it appear that larger had given the money to his mother and sister who louned it to the firm. Targer agreed to give up the notes when the aution against him was settled, instead of which he transfered them to his brother Domaine Targer. In 1883 Donnelly, Dunie & Co had a settlement with Michael Targer giving their note for all moneys due him substquently Domaine Targers sued them to recover the \$22 000 and \$510 interest there on Pialutiffs allegs the money was really never loaned their him and that Domain and Michael have, conspired to defraud them They ask that the two rotes be cancelled and destroyed.

A Remedy for the Lvi Chicago News
There were 24.58 desertions from the regular army during the last year. Gen Schoffield is trying to devise some way of proyecting a Lambar trying to the second of notice that offi private and non-commissioned officers deserted. The chances are that desertions could be entirely prevented by making all members of the army brigating generals.

Twenty Participants-Over 40 Shote Exchanged -Two Dead-Three Mortally Wounded-

Five Chinese Arrested Therefor The most sanguinary shooting affray which has ever occurred in this city took

place ibout 1 o clock yesterday atternoon between two gangs of Chinese highlanders at the corner of Second and Alder streets Bome fifteen or twenty took a hand in the bloody fight which was a regular putched battle lasting for about ten minutes, during which some forty or fifty hots were fired and at the end of which four men iav weltering in their gore while two others who had fullen in the fray were cirried of the field by their frinci and at last accounts their whereabouts bud not been

The affair caused intense excitement. As it took place in the center of thinstown but few white persons were present and while the to tade was coing on but few rushed to I number of persons however windows at the first shot and from their different standpoints witnessed the co

As oon as the firing ceased the street is the virial's were packed with people who crowded around the wounded men and pushed and jostled cath tiliers (their efforts) to get nearer to them. Just of this time some one was crowded against the door of Wing Mow Lungs store and smashed two Wing stow being a safe and aniarded two hirge equives of glass is she sound of breaking glass attracted the itte ston of the growd and some one yelled. They recoming again when a regular stampeds took place and the streets were cleared in a

the four wounded man were placed on shutters and carried to the cny jail, the blood flowing from their wounds leaving trails on the a dewnik all the way. At the jail they were paced on the floor of one of the dark cells where they were soon sur rounded by a crowd among which doctors. himyers and reporters were represented in tequal numbers. As the men were

VELT SERIOUSIT WOUNDED And it seemed as if at least three of the four con d not live long an effort was made to get some information from them as to who had done the shooting By the aid of an in terpreter questions were asked them but three of them were in such a and plicht that but little could be shelted from them Mah Bing said Wong Sing shot him on

secount of a quarrel about a gambling debt He was shotin the grein and thed in half an hour after he was brought in

Ah Lung who had a wound in his cheek nother in his neck, and a boilet ho'e in his back which looked as if made by a shot from

a ride such Pon Long had shot him
Ah Sie who had a shot in the back of his
head, from which the blood and brains
coxed and a bullet wound through the wrist severing an artery said Ah Lung shot

Wong Chung could not tell who shot him He had several deep gashes in h.s nead, as if made by a hatchet and a bullet hote in the small or his back. The pistol from which the shot was bried was held so close to him that a fiele was burned through his three costs and the skin burned and powder blackened around the wound

made we a hatchet and a bullet hole in the small or his back. The pustof from which the shot was need was held so close to him that a field was been day of the high was brined through his three coats and the skin burned and powder blackened around the wound.

A gony spectaciz

The cell presented a strange speciacle the four wounded men mounting and withing on the floor several doctors examin by the matter of the numerous wounds, to sainly their currently, interpreters trying to obtain answers to their questions from men who seeined in their death threes, while above all the noise rose the hill sound of some so-called evangulates slugging to the vage and trainps in the main cell.

A crowd was gathered at the doors and windows of the jai and as most of the place were out trying to capture those who had done the shooting many would work their way into the building and the hall was seen densely packed and the cell crowded with eager speciators.

Errey once in a while is policeman would bring in a Chicaman and chidavor to have him identified by the wounded men. The prisoner would be beinged to the out flowling, souch as seen in order that he might be plainly seen. Five were thus brought in who were seen posed to be unplicated in the shooting, but noise of them were identified except from the southern part of the city by Fohem in Nash Ah Lung identified scape for the considered in the chicked of the more with the part of the city by Fohem in Nash Ah Lung identified scape for the considered in the city by Fohem in that had been and a worker and a will be respectable Chinese mechanics anded by the city autitorities, who shot him.

While the police were endeavoring to have the prisoners identified some of the doctors and must restrict the restrictions are prefer with the special part of the respectable Chinese mechanics and the incomber of the prisoners identified scape for the city by Fohem in the southern part of the city by Fohem in the southern part of the city by Fohem in the southern part of the city by Fohem in t

the prisoners identified some of the doctors administered hypodermic injections or mor-phine to the suffering men which quieted them. Wah Ring had died shortly after he was brought in Wong Chung seemed dying but some brandy was poured down his throat

the hospital and dressed the wounds of the librer men.

Toward evening another wounded man mamed Lup Yiek, was brought in and sent to the hospital. He had been shout in the back and had gone up into the Chinese theater and secretical himself under the stage. Dr. baylor and Dr. Wheeler examined him and tomat the builet had entered the small of his back and was still in his body. His recovery is very doubtful.

The physicians report that Ah Lung who had the most wounds will probably recover 110 was shout in the back of the mick, the buillet coming out of his chief, was shown the back of and had a scaip wound from a glanc in, builet.

Ah was shot in the braid shoulder and what is not expected to recover.

Ab our shot in the braid shoulder and what is not expected to recover. Wong Chang it was not supposed would have the norm. He was shot in the region of the kidners the bullet lodging in him there were live persons arrested by the rease Ab Yew. Ab Yee is Ling Youk ben in it on Lung.

PARTI CINES () THE PL HT

From the account of those who witnessed

From the actors to those who witnessed the battle it was a large and bloody strugge the temberation of the chinese when nerved up for a murdarous encounter. The hight was begun by three men who cam down from Frank Woon's test mant on become street near Alder They actors of Mall ling as be came out an goalling house at discounts to the first hots aure fired annuncerof others came up the sesailing parts appear to have had the refuse formed and were all armed with 11 tols while the men attacked were excluding to while the men attacked were excluding to well prepared and were taken to a present the second with the first and were taken to be severed and were taken to be severed.

coin Aera carried, away. The bulgiars was con matted between 5 and 7 of clock in the morning and it is thought by the same pur ture who went through the store of the Oreat Eastern I ca Company several weeks ago.

As in the other burglar; entrame was effected to cutting a panel out of the back door. When once maide the lights were lowered and the work of bag ing the vain ables commenced. In the till which was traken out and carried to the back part of it a store only about \$1.00 was found.

Not sutside with so small a hauf the burgiars packed up several deen of the most of able meas-chaum paper. It is also the hit that has a like of the hit that has a like of the partier of a like which we care taken what the vibe ght of 11 in 1 c. it is do not 1 the instruction toos that he partier that he has an a getter out in the door. There is no that as to who the burglar size or whither they went.

Purchase your tickets and reserve your *In all directions and some hand to hand struggles took place. Two men were seen struggles on the ground and two mare standing over them each struggles pair. One fallow was ambushed behind a weedy k taking pot shots at his enemies when an other fallow chimbed on a ber hand she over the woodple at the man behind it. One fallow ran across the street jut he justed rig tagainst a man, blazed away and then rut back.

Two near were beating another over the .In all directions and some hand to hand

The back.

I wo men were beating another over the lawth iron bars, a favorite weapon of the Chinese. They would knock him down and he would get up on his knoces and blaze any Meit were seen to run up to a man who we oown and shoot at him several time. One fellow who was shot, stood lean

WAR AMONG HIGHBINDERS, ing against a post and kept firing till be felt "LET FACTS BE SUBMITTED AN EXCITING SCENT

Like all such affairs everything within a hurly burly and even men who were looking on from windows can give no connected ! nt of the progress of the light white man was seen standing a corner during the light grasp standing

views of the Pollard system — said a reporter to Coundy Superinkindent Werk II at his home last evering and during a few minutes interval any chief from time which be for sed to be labor of the teacher between the duties of the day and choir practice the following convertation was had.

The residing of the children on this side.

A white man was seen standing on a corner during the hight grasping a Chinaman with each hand. Whenever a pictot would pop he would pull a Chinaman in tront of him for a shead.

An o a Chinasa cobbler who works on the sidewalk man Alder street quietly stitched away at a shoe he was repairing and never hooked up nor missed a stition while the batter nigod.

Amid so nuch excitement and so many conflicting stories; it is hard to tell what to give a edition to lift is said that shots were fired from balcones and that on the bal conv in front of Frank Woon's restaurant a fillow was shooting with a Vunche tarriffe. A bad man was Moy Lung Lu who was flourishing a pi tof in each hand and firing first one and then the other. PENIN BUILFIN

The walls in the veinity of the intersection of Second and Aider has the critical bullets in many places and squares of glass missing from wild ass how white all did bullets wer picket up in the self it and one pessed through the door of Iretz man & Dekrances, show store a block may wrom selver of others were heard to strike the bulling and full upon the side with

strike the bin'ining and full upon the side with a found Wing Min Lung was diguted. He did not know in uch about the shoding fut said. I go to the potofice 50me one break my dain wine was cost include of one break my dain wine ows cost include of other and it half.

Considering the number of men engaged, and the number of shots fixed it is not too prising that no more people were wounded and that no white hier were laid. Coroner Dellin saw considerable of the fight from in front or his establishment. He saw two num photosened to be most active in firing confer intung up the street towards him and said to the by tander. Let satop them. One of them at this turned and ran up the status over his place. Several per on it in around to the statights on the did not come down. He is out on a porch on the second story and jumped down on a shed and found a hinting place in a wash house on Third street.

shed and found a singing place in a wash house on Third street.

Mr (harles Hewatt while searching for this man found under the porch from which he jumped a large r volver and city, i one hour hirdle kinfe two alout as wicked looking weapons as each be cared up

MIXID 18 A5 USEAT

As is always the case in rows an ong the Chinese it is very d flight to get any inform-tion as to the cause of the trouble. The statements of thelelass of Chinese who are mixed up in such affairs is not to be relied on and even the living statement of one of these highbinders is as tikely to be false us

these highbinders is as their to be laise us true.

A new highbinders society was organized here a short time since which is called. Hopeong thought is said that Pon Long is the child of the society and I find Wood one of the principal officers, books residuant is a place of rendezvous for the Sadely and it was in this place where the backety and it was in this place where the backety and it was in this place where the deality work rendered and from there the men salked out and began then deadly work by shooting Mah Bing. From the best in formation to be obtained on the ubject these highbinder.

ble of the results which the word method secares by its wider availability. There are two advantages possessed by Mrs. Pollard's system over the word method when used alone. Her pupils will make accurate spellers which the word method does not do and will enable the chifdren to rely upe 1 their own investigation in encountering new words. The word method leaves the child helpless before a word it has not been taught. Of course in the system we use, these obstacles are net by the phonic features with which we supplement the word method. method

I have nothing to say concerning the Portland school board's action in adopting the system. I have nothing to do with their miningement, and what I have said applies only to the system in itself considered. Yet it appears to me that an experiment would have been more are, in view of the general ignorance of the method. how?" You must have an umbrellass not cate and a parasol trust in this country.

Just look it me "and saving this he put his unitrelia asule and displayed a visage which looked as though it might have been bathed with the spray of old Pacific. Institute this altigad unitrelia. I constand it as long asyou have what you here call Gregon not to but when your mists come down in consolitated chunk why then I object. I most emphatically enter a domining when walking under the dripping eaves of an awaing your mists envelope may with a vergence. The rain atrikes the umbrella and comes down on my face like the spray from the night of this man on the stockes he is spraying. In justification of his retoking the contents of the spray from the night of the man on a second of the spray from the night of the contents of the spray from the night of the contents of the spray from the night of the contents of the spray from the night of the contents of the spray from the night of the contents of the contents. 18E PORTLAND LIBRARY A Correspondent Who Thinks the Present Foe Too High for Single Man.

To fur Epiros c. Tug Oszgortza We have a justifishie pride in our public there and it is one of our chief delights to take there our guests and visitors, and show them an institution worth; of the metropo-lis and which is a monument to the literary

them an institution worthy of the metropolis and which is a monument to the interary ta testal trendencies of Portland. In while the library is well patronized generally it no occurred to the writer that its membership of young unmarried men who are in this city remote from their friends would undbuotedly be magin itself to a ling extent by a themse in the fee. The precipit harge of \$1 per month or \$7 per vert is not too high a subscription for a married nan who besides him off has a family to profit by the library but when the same fee is selled of a young man who if he be a lookkeeper or clearly with the loog hours attending such vedations can devote to literary pursuals but a small fraction of each day the charge seems altogether out of prono too. To equalize matters somewhat your correspondent would propose this remedy lake a special rate for this class of subscribers of 50 conts per month or \$4.50 per year and give such the privileges customary now with the exception of allowing only one book to be taken from the library at any one time, instead of two as at precent.

at any one time, instead of two as at precent.

The question is scarcely likely to be raised, flow can it be told whether a man be single or married. but should it, we can only any or that our worthy abrarian, Mr. Ozer with he extensive knowledge of it to told at a flow of the case able to told at a flow of the case and be able to told at a flow of the case and the precent of the rest and the library book of reference to full back upon. If any real obstacle ten the path of this scheme they are unknown to.

T. W. I. IPEWICH.

Hood a Servaperilla ourse sheumatism, by non-traiting, it achiefy if the blood which causes the disease.

ABSOLUTELY PURE For quick raising, the Royal Baking Powder is superior to all other leavening agonts R is absolutely pure and wholesome and of the highest leavening power 24 is always uniform in strength and quality and never falls to make light, excet, most paintable and nutritive food. Bread, biscuits, muffins, cake, ctc., raised with Loyal

Bairing Powder may be caten hot without distressing results to the most deheate digestive organs - It will keep in any chunte without or terioration Prof H A Mott, U S. Government Chemist, after causing officially be

principal baking powders of the country reported "The Royal Baking Powder is absolutely pure for I have so found it in many

tests made both for that company and the United States Government

"Because of the facilities that company have for obtaining perfectly pure cream of tartar, and for other reasons dependent upon the proper proportions of the same, end the method of its preparation, the Rayal Baking Powder is undoubtedly the purest and most rehable belong powder offered to the public.

"DR HENRY A. MOTT, Pn D."

When the came here at her request the terms when the came here at her request the teachers on this sade met with her and she approved her system at great the truly it told her to the notice that her one questions. which would selfly the value of her system in my mind and that a is Do you teach the word as the sign of an In the world that instanty stops the most exerciseding pans. It never buts to give ease to the sufferer of I ain arising from whatever cause, it is bully the Great

In my build and those is

Do you teach the word as the sign of an local No. She replied promptly. I do not that to my mind is the source of weak ness to her system just us it is that source of teach to the word method which has an inest to her system just us it is that source of it each to the word method which has an just of the close to so of the country. Experience has convinced me that much more real indicate to a first property and satisfic of gregory can be made by teaching the child the word as the name of in object and then letting him learn in time the individual counds, than in teaching the elementary sounds first, arbitrarily and not in word as the ign of an idea.

I can see nothing in Mrs. Pollard a system but the (dd Sheldon phonetic method in the attractive. It is but a slight advance upon the original alphabet system of course Mrs. Pollard by her enthusia in and experience is the to becomplish good results she fells the children for Islance, that when the little lambs run ghout they can be in a first our should be a parametrial at first our street a hich greatly and the child in his progress. This is all well enough for her but the fact is that manety nine out of every hundred teachers have not the ability of the enthusiasm to handle the wistern chickively as she does in their hands therefore, it will be income by its wider availability.

There was two advantages possessed by CONQUEROR OF PAIN, and has done more good to the any known remady. For SPLAINS BRIDSE BY MAACHI PAIN in the CIII STOY BIDE.
